A VIEW OF ONE BLOCK OF OUR EVERGREENS

86th Year...

Nursery and Landscaping Department

Quality and service since 1852 have built us a clientele of which we are justly proud. Their continuing patronage springs from a confidence rooted deep in years of satisfaction on the smallest, as well as the largest, commissions.

Back of all stands our nursery and landscaping plant of thirty-five greenhouses and two hundred acres of ground, manned by a personnel of long and thorough experience. Both plant and personnel are at your service for inspection and consultation without obligation of any kind.

At VALENTIN BURGEVIN, INC.
the welcome sign is always out.

General Information

Goods En Route—Transportation company is responsible for goods enroute. Notify them at once if parcel arrives in an unsatisfactory condition.

Location—Our range of greenhouses and nurseries is located at the end of Pearl Street. Flowers and plants of unusual beauty and charm can be seen here every season of the year.

Telephones—Greenhouses and nursery: Kingston 430; Store 874. Those finding it necessary to phone on Sundays, holidays and evenings, are requested to call any of following numbers: 897, 1092, 1523M, 2372.

NOVELTIES

CHRYSANTHEMUMS

Early October Flowering KOREAN HYBRIDS

These new creations are especially fine for cold climates where the ordinary Chrysanthemum Winterkills. They are most attractive in color, very early blooming, easier to grow, and more profuse. The lovely new pastel shades, which simply defy accurate description or true color reproduction, suggest the Gerbera in their daintiness. Cut with short stems, they make the most charming table decorations, yet are capable of striking decorative uses if the entire branching sprays are used. They are compelling for color effect in the garden.

	Each	12
Apollo. Bronze red. 2½ ft.....	\$0.25	\$2.50
Ceres. Chamois yellow, 2½ ft.....	.25	2.50
Innocence. White on opening, changing to soft pink. 2 ft.....	.25	2.50
Louise Schling. Salmon red. 2½ ft.....	.25	2.50
Mars. Wine red. 2½ ft.....	.25	2.50
Daphne. Soft pink, lilac-rose sheen. 2½ ft.....	.25	2.50

(See illustrations on fourth cover)

NIEREMBERGIA HIPPOMANICA

New Introductions

OFFERED FOR THE FIRST TIME—1938

“RUSSELL” LUPINS

Giant size spikes of bloom, often 3½ feet in length; in yellows, oranges and rich bright crimsons. 3 inch pot, 25c. each, \$2.50 per doz. *Illustrated on front cover.*

NIEREMBERGIA HIPPOMANICA

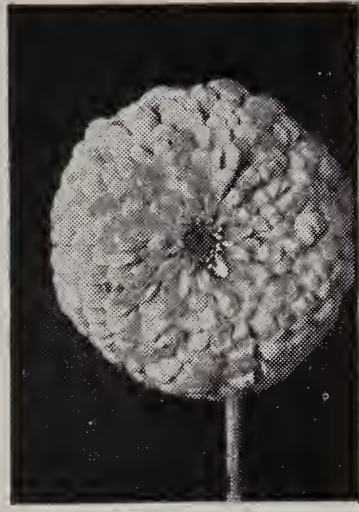

Light lavender-blue, flowers freely and continuously throughout Summer. Ideal for border work. 8 to 10 inches. 20c. each, \$2.00 per doz.

“CHARMING”—New Pink Buddleia

Lovely lavender-pink shade, young plants set out in Spring, grow to height of 4 to 6 feet. 4 inch, 75c.

GAILLARDIA

GIANT ZINNIA

ANNUALS for the Garden

For Cut Flowers and Garden Beauty All Summer

Annuals—as the name implies—are good for only one year, but unlike perennials, bloom continuously until frost, and in many respects are more economical. Perennials alone make only a one-sided garden.

	12	100
Annual Chrysanthemums	\$0.40	\$3.00

DUTCH BULBS

We do not list the numerous varieties of these bulbs that are so essential to beautify a Spring garden. We merely make mention of the fact that our stock is widely assorted and take pride in the uniform quality and size that has been traditional with us. There are many varieties admirably suited for planting in the rock garden, however small. Bulbs ready after September 15. A price list of varieties will be gladly sent upon application.

TENDER
PLANTS FOR BEDDING

For lack of space we do not list all varieties of bedding or house plants. We have selected the more desirable ones—an inspection of our greenhouses will reveal many others of new interest and charm. Those marked (*) are most suitable for window boxes, hanging baskets, etc. Because of frost and climatic conditions, we do not advise planting these out in the open until after May 15th.

(50 plants at 100 rate)

GERANIUMS

We have our usual stock consisting of more than 30,000 well grown plants in considerable variety including vining, variegated leaved and sweet scented.

The following have the best growing habits and are the most attractive varieties and colors.

HARDY PERENNIALS

The best time for planting is in the Spring when they are starting to grow. Avoid planting in wet soil; it is always better to wait until the ground is fairly dry. Most perennials, although really hardy, should have protection during the Winter—care should be taken in covering them so they will not smother. A light covering of leaves, salt hay or straw, is excellent, making sure the base of the plant is well protected.

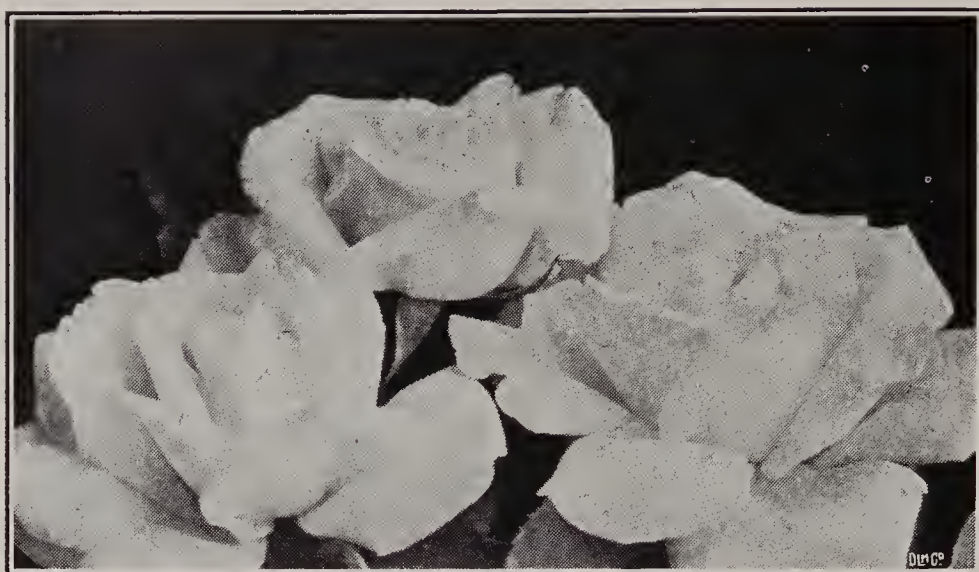

Although perennials perhaps need less care than other plants, one will be repaid in the proportion of care he is willing to give them in the form of water in a dry time, working the soil, mulching and applications of fertilizer at regular periods.

FRAU KARL DRUSCHKI

ROSES

SOME NOTES ON THEIR CULTIVATION

Before planting, dig the bed up from 12 to 18 inches deep, incorporating an abundance of well rotted manure. When

Proper method of covering Rose Bushes for Winter protection

planting, insert the plant in the ground so that the roots are well covered, taking care to make the soil firm around the plant, leaving a depression around the plant to hold the water.

Roses need lots of water when dry and it is important to give the plants a thorough watering. Roses need an abundance of fertilizer. Bonemeal is very beneficial. However, Vigoro, the prepared fertilizer, is recommended because it is a complete plant food furnishing every food element required.

When syringing Roses, always do so in the morning and only when the sun is shining.

This allows the foliage to become dry before the evening. Damp or wet foliage will cause black spot and mildew.

In the Fall, before the ground freezes, the Hybrid Tea Roses should have a mound of soil placed around the plants from 10 to 12 inches high. After the ground is frozen to a depth of 3 or 4 inches, the entire bed should be covered with salt hay or coarse horse manure to a depth of 6 inches. Hybrid Perpetual Roses do not require the mounding of the soil around them, but the covering of the soil with coarse manure or salt hay is beneficial for these also.

Our Roses are all pot-grown and can therefore be planted out any time without disturbing the roots.

We have about 40 of the best varieties, including the new introductions, and recommend each one for its habit of growth, hardiness, productivity, and its color.

All our Roses are packed in Cloverset Pots. By this method we are able to start the plants growing under the proper conditions, thus enabling the purchaser to plant the Roses when in full bloom without any harm to the plant.

© ECLIPSE (Plant Patent No. 172)

HYBRID TEA ROSES—POTTED

Autumn (Coddington, 1928). Most extraordinary colored rosebud—burnt sienna—on strong stems for cutting. Foliage glossy and very dark green and resistant. 75c.—\$1.00 each, \$7.50—\$10.00 per doz.

Better Times (New). The brilliant cerise flowers are large, double and delicately fragrant. Being produced on long, strong stems, they are excellent for cutting; foliage is leathery, dark green; a very free, full bloomer. Its success is indication of the name. Plant Patent No. 23. \$1.25 each, \$12.50 per doz.

Briarcliff. Fine, handsome flowers of the even shade of silvery rose-pink. 75c.—\$1.50 each, \$7.50—\$10.00 per doz.

Countess Vandal. The Rose of Roses! "Countess" has been enthusiastically received by Rose lovers everywhere. Its long, pointed bud, its distinctive shadings of coppery-bronze suffused with soft gold and its form are a continuous "movie," developing new beauty at all times during its long life. A leading seller among Hybrid Teas. (M. Leenders, 1932). Plant Patent No. 38. \$1.00 each, \$10.00 per doz.

Eclipse. The international sensation of the year, awarded prizes in Rome, Paris and other test gardens. The long, streamlined bud, enhanced by ornamental sepals, is of rich gold without shading. Petals are large and tough, but not numerous, averaging 20 to 25, with more in the Autumn. Speaking of this Rose, a connoisseur remarked, "Elegance is preferable to opulence." The name "Eclipse" came about because the seedling bloomed for the first time on the day of the total eclipse, August, 1932, and it will go in commerce with the slogan, "It Eclipses 'Em All." Gold Medal, American Rose Society. (J. H. Nicolas, 1936). Plant Patent No. 172. \$1.50 each, \$15.00 per doz.

Etoile de Hollande. The finest and most fragrant dark red Rose for general purposes. 75c.—\$1.00 each, \$7.50—\$10.00 per doz.

Frau Karl Druschki. Very vigorous growth, with gigantic white buds and blooms. 75c.—\$1.00 each, \$7.50—\$10.00 per doz.

ROSES—Continued

Gruss an Teplitz. Medium blackish maroon blooms in clusters; very fragrant. 75c.—\$1.00 each, \$7.50—\$10.00 per doz.

Joanna Hill. Very double bloom with Indian-yellow center surrounded by bold buff petals. 75c.—\$1.00 each, \$7.50—\$10.00 per doz.

Louise Krause. A glistening yellow with orange tints; large, full, and fragrant. We consider it one of the best acquisitions of recent years. Long stems. Handsome, strong foliage. 75c.—\$1.00 each, \$7.50—\$10.00 per doz.

Mrs. Sam McGredy. Large, fairly double bloom of orange-salmon, with a suffusion of gold. Vigorous, healthy plant. One of the best of the tribe of Irish Roses. 75c.—\$1.00 each, \$7.50—\$10.00 per doz.

Radiance. Large, brilliant rose-pink blooms. 75c.—\$1.00 each, \$7.50—\$10.00 per doz.

Red Radiance. A bright rosy red form of Radiance. 75c.—\$1.00 each, \$7.50—\$10.00 per doz.

Ronsard. A new type of bedding Rose of the most astonishing coloring. Its bud is yellow, but gradually the edges of the petals curl back and show deep scarlet-red inside, thus creating a flamboyant color contrast which persists to the end. The blooms are of medium size and produced in great quantities through the season without interruption. Racially, the plant is of Rugosa and Austrian Copper descent and belongs to the hardy class of garden Roses but the bloom and habit are Hybrid Tea. (Gaujard 1937). Patent applied for. \$1.50 each, \$15.00 per doz.

Roslyn (Towill, 1931). Full golden yellow bloom, deeper in center, with orange splashings on back of petals. 75c.—\$1.00 each, \$7.50—\$10.00 per doz.

Talisman. Fragrant bloom of glowing golden yellow, stained with copper-red, and orange rose on the inside of petal. 75c.—\$1.00 each, \$7.50—\$10.00 per doz.

CLIMBING ROSES

American Beauty. Red. 75c.—\$1.00 each, \$6.00—\$10.00 per doz.

American Pillar. Pink single. 75c.—\$1.00 each, \$6.00—\$10.00 per doz.

Blaze. Acclaimed by the nation as the only hardy everblooming scarlet Climber. Blaze combines the vigor, beauty and hardiness of Paul's Scarlet Climber with the everblooming qualities of a favorite everblooming Rose. Propagated from blooming wood only. Plant Patent No. 10. \$1.00 each, \$10.00 per doz.

Dorothy Perkins. Pink. 75c.—\$1.00 ea., \$6.00—\$10.00 doz.

Dorothy Perkins. White. 75c.—\$1.00 ea., \$6.00—\$10.00 doz.

Doubloons. A hybrid of our native Rose setigera. Clusters of very large, cup-formed, saffron yellow blooms, opening one after the other, thus prolonging the season. Long heavy canes. Undoubtedly the best yellow Climber to date. Has the tendency to repeat in Midsummer. (Horvath, 1934). Plant Patent No. 152. \$1.50 each, \$15.00 per doz.

Excelsa. Crimson. 75c.—\$1.00 each, \$6.00—\$10.00 per doz.

New Dawn (Everblooming Dr. Van Fleet). Vigorous free blooming. Flesh pink in color. A very beautiful and popular Rose. Plant Patent No. 1. \$1.50 each, \$15.00 per doz.

Rosa wichuraiana. For use as ground cover. 50c. each, \$5.00 per doz.

GRUSS AN AACHEN

FLORIBUNDA—A New Class

Floribunda is a group especially bred for mass planting and garden decoration. The habit of growth is similar to Hybrid Tea, medium height, but they are winter hardy, therefore permanent and bloom continuously in numerous clusters. The flowers are fairly large, from single to very double and include the entire range of colors known in Roses. A distinctive feature is the long lastingness of the flowers by all weather, even the hottest sun which wilts Hybrid Teas so quickly. It is a group, not a strain, because these Roses are derived from various Arctic species or sources. The flowers are also very useful for centerpieces and house decoration, more lasting than any other Rose.

The Rose is pre-eminently a garden flower and this new group brings it more closely to the perennial status in garden ornamentation; permanence, continuity of bloom and ease of culture.

These varieties produce the best effects when planted closely, 14 or 15 inches apart, in large groups, masses or borders of one color, they will blanket the ground and the foliage will be almost hidden by the blooms. For color display, they are more effective than Geraniums or any bedding plant and more permanent.

These varieties were formerly classed among Hybrid Teas or Hybrid Polyanthus but are now segregated in this new class.

Brilliant Echo. Improved Echo, like Roserie in color but more uniform rosy pink. 50c.-75c. each, \$5.00-\$7.50 per doz.

Else Poulsen. Flowers medium size, semi-double, lasting bright rose-pink. 50c.-75c. each, \$5.00-\$7.50 per doz.

Gruss an Aachen. Large flowerlike Hybrid Teas, orange-pink in bud, paling to soft salmon-pink and white on opening. 50c.-75c. each, \$5.00-\$7.50 per doz.

Kluis Scarlet. A brilliant red Lafayette. Very generous of blooms. Ideal for borders or mass planting. 50c.-75c. each, \$5.00-\$7.50 per doz.

Red Echo. A brilliant red dwarf Tausendschoen. Continuous bloomer. Most effective for mass planting. 50c.-75c. each, \$5.00-\$7.50 per doz.

CLIMBING VINES

Strong, field grown plants, heavy tops, good roots. Grown in Cloverset pots so that they may be set out at any time.

Actinidia arguta (Silver Vine). A very desirable hardy Japanese climber of strong, vigorous growth, with dark green, shining foliage and greenish white flowers with purple centers which are followed by clusters of edible fruit of figlike flavor. An excellent plant for covering arbors, trellises, etc., where a rapid and dense growth is desired.	Each	12
3 yrs. old.....	\$0.75-1.00	\$7.50-10.00
Ampelopsis quinquefolia (Virginia Creeper) (American Ivy). Fine for covering trellises, verandas, etc.		
2 yrs. old.....	.35- .50	4.00- 5.00
Ampelopsis tricuspidata (veitchi) (Japanese Creeper, Boston Ivy). Foliage handsome in Summer, changing to crimson-scarlet in Autumn. Clings to walls and fences; fine for brick or stone. 2 yrs. old..	.50- .75	5.00- 7.50
Aristolochia siphon (Dutchmans-pipe). 2 yrs. old.....	.75-1.00	7.50-10.00
Bignonia radicans (Trumpet Creeper, Trumpet Vine). Trumpet-shaped, scarlet flowers in August. Deep green foliage. 2 yrs. old....	.50- .75	4.50- 6.00
Celastrus scandens (American Bittersweet). Yellow flowers; orange fruit in Summer. 2 yrs. old.....	.50- .75	5.00- 6.00
Clematis jackmani . Purple. Large-flowering. 2 yrs. old.....	.75-1.00	7.50-10.00
Clematis paniculata (Sweet Autumn Clematis). White flowers. Small flowering. 3 yrs. old.....	.50- .75	5.00 7.50
Euonymus radicans vegetus (Big-leaf Wintercreeper). Large leaves. Evergreen. 15-18 in.....	1.00	10.00
Lonicera japonica halliana (Hall's Japanese). Pure white flowers, changing to yellow; sweet-scented. Almost evergreen. Good ground cover. 2 yrs. old.....	.35- .50	4.00- 5.00
Lonicera sempervirens (Honey-suckle, Scarlet Trumpet). Scarlet flowers. Rapid grower. 2 yrs. old..	.50- .75	5.00- 6.00
Polygonum auberti (China Fleece-vine). One of the most desirable flowering climbers. The plant is of strong, vigorous growth, attaining a height of 25 ft. or more, producing through the Summer and Fall great foamy sprays of creamy white flowers. 2 yrs. old.....	.50- .75	5.00- 7.50
Wisteria, Chinese Purple (<i>Wisteria sinensis</i>). Long, pendulous clusters of pale blue flowers. 2 yrs. old.....	.75-1.00	7.50-10.00

ROCK GARDEN PLANTS

We are pleased to announce that we have a large variety of perennial and rock garden plants.

GROUND COVERING PLANTS

	Each	12
English Ivy.....	\$0.25	\$2.50
Euonymus radicans.....	.50	5.00
Euonymus vegetus.....	.50	5.00
Juniperus horizontalis.....	1.00
Pachysandra.....	.25	2.50
Rosa wichuraiana.....	.50	5.00
Vinca, or Periwinkle.....	.25	2.50

(For shady places where grass will not grow)

VEGETABLE PLANTS

Grown in small quantities for retail trade only. Do not set out unless protected until after May 15th.

	12	100
Brussels Sprouts.....	\$0.15	\$1.00
Cabbage. Early and late varieties.....	.15	.60
Cauliflower. Early and late varieties.....	.15	1.00
Eggplant. Pot grown.....	10c. each, 1.00	6.00
Kohlrabi.....	.15	.60
Leek. Transplanted.....	.15	.75
Lettuce. Head and curly, transplanted.....	.15	.75
Parsley. Pot-grown.....	10c. each, 1.00
Parsley. Transplanted.....	.15	.75
Pepper, Sweet. Transplanted.....	.20	1.00
Pepper. Large, strong.....	.20	1.00
Pepper, Cayenne.....	.20	1.00
Tomato: Following varieties in order of earliness:		
Earliana, John Baer, Matchless, Stone,		
Dwarf Stone, Golden Queen, Yellow Plum		
Pot-grown plants.....	10c. each, 1.00	7.00
Transplanted.....	.25	1.50

Cabbage, Cauliflower, Lettuce, Parsley, Kohlrabi, ready after May 1. Eggplant, Leek, Pepper, Tomatoes, May 20

INSECTICIDES

Ant Killer—Dolco. 30c. per pkge.

Aphine. ½ pt. 50c., pt. 75c., qt. \$1.25, gal. \$3.00.

“Black Leaf 40.” Oz. bottle 35c., 5-oz. bottle \$1.00, 2-lb. bottle \$3.10.

Mice and Mole Cereal—Dolco. 35c. per pkge.

Slug Shot. Pkge. 20c.

Tri-ogen. Small kit, \$1.50; medium kit, \$4.00.

Pomo Green with Nicotine. 1 lb. can 75c., 5 lb. carton \$3.00.

Tree Wound Paint. ½ pt. 50c., pt. 75c.

Weed Killer. \$1.50 per gallon.

FERTILIZERS

Peat Moss. Bale \$3.50, 2-bu. container \$1.50.

Bonemeal. 2-lb. can 25c., 5-lb. can 50c., 10-lb. can 75c., 25-lb. bag \$1.25, 50-lb. bag \$2.00, 100-lb. bag \$3.50.

Hydrated Agricultural Lime. 10 lbs. 50c., 25 lbs. \$1.00, 100 lbs. \$2.00.

Leafmold. 50 lbs. \$1.25, 100 lbs. \$2.00, 500 lbs. \$7.50.

Hardwood Ashes. 10 lbs. 50c., 25 lbs. 75c., 50 lbs. \$1.50, 100 lbs. \$2.50.

Bovung (A Natural Organic Fertilizer). Bags of 50 lbs. \$1.50.

Sheep Manure. 50 lbs. 50c., 10 lbs. 75c., \$1.00, \$3.50.

Stable Manure. \$4.00 per wagon load.

Grafted Roses insure strong growth, freer bloom

SEEDS

Flower Seeds. In packets only.....5c. and 10c.

Vegetable Seeds. In packets only.....5c. and 10c.

LAWN GRASS SEED

HOW TO PREPARE A LAWN

Proper soil and a good mixture are the two essentials to be considered when making a lawn. Seed will be found to be the least expensive item. The first step is to break up the ground by ploughing or spading. Incorporate manure if available into the soil, using one load to an average 100 square yards, keeping it well near the surface. If manure is not available, a commercial fertilizer such as Bovung is recommended—8 lbs. to 100 square feet is sufficient at first. Ground in a shady place will probably need a light application of lime. Clay soils should have a mulch of leafmold or Driconure, which is a mixture of peat moss and dehydrated cow manure.

Before seeding care should be taken to rake the surface well by removing weed roots and stones and breaking up lumps of earth. The final step before seeding is to rake the surface until it becomes smooth and fine. Seed should be sowed according to the above chart after which it should be thoroughly rolled in.

HOW MUCH SEED TO SOW

Area	No. Sq. Ft.	Seed
10x10.....	100.....	1 lb.
20x10.....	200.....	2 lbs.
25x20.....	500.....	5 lbs.
40x20.....	800.....	8 to 10 lbs.
100x20.....	2,000.....	20 lbs.
200x50.....	10,000.....	100 lbs.

For renovating lawns, one-half of above quantities is recommended

Burgevin City Park Formula for Sunny Places

(Containing No Weed Seeds)

Tests have shown this seed to be ideally adapted to our climate. It is a special formula created after years of experience and trial. Containing no annual or quick-sprouting seeds that make only a temporary lawn, it is a mixture that actually improves from year to year. For its high quality this seed is very low priced and is equal to some brands that sell for nearly twice as much.

Lb. 30c., 2 lbs. 55c., 5 lbs. \$1.25, 10 lbs. \$2.40, 20 lbs. \$4.50

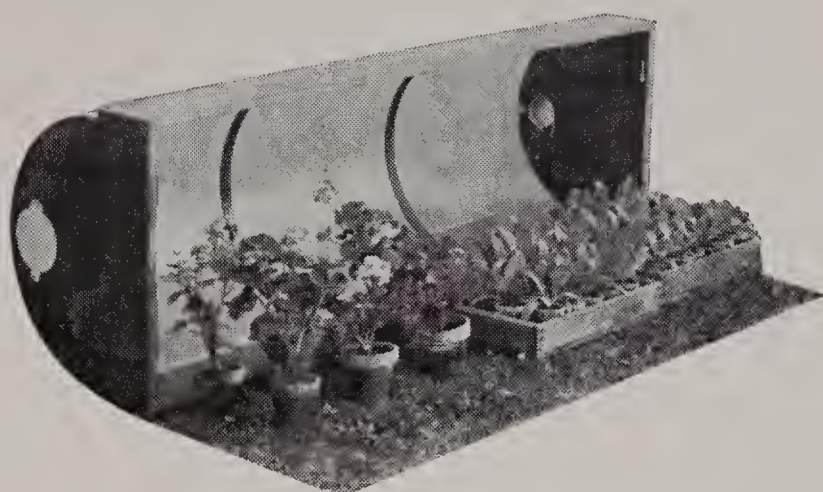

Burgevin City Park Formula for Sunny Places

Lb. 35c., 2 lbs. 60c., 5 lbs. \$1.45, 10 lbs. \$2.75, 20 lbs. \$5.25

"GARDENETTE"

The best seed planting box made. With scientific sterilized soil, gravel, sand, and plant food all in one package. Here is the answer to getting earlier, healthier flowers and plants. Everything needed—all in one package. \$1.00.

If you will give us your orders a few days in advance of delivery date you will assist us greatly in making selections

THE "SOUTHWIND" PORTABLE GREENHOUSE

A Year-Round Aid in Any Garden

A unit made of cypress, cedar or redwood frame, and Celloglass. Here are some of its many uses: For starting earlier, healthier, stockier plants; protects transplants and tender plants from insects, winds, and sunburn; prolongs growing season; in the Winter, cover mulched Roses, tender plants and bulbs against Winter-injury.

It maintains a much more uniform moisture supply than can be possible in an uncovered bed.

The "Southwind" Greenhouse is so light that it can be easily moved by one person from one part of the garden to another. Heating units may be installed in the "Southwind" **Portable Greenhouse** at extra cost.

Size 22 in. x 72 in.—Price \$12.00
